

## Crowdsourcing Safety: using a dashboard to keep the library safe

### How It Worked

- Created using LibInsight
- Simple URL provided to all library staff
- Live dashboard covering 7 days
- Reporting form for comments and additional information about a report
- Weekly report was given to library administration
- A weekly summary report provided to staff

### Facts

- Dashboard ran from 8/27/2020 to 5/21/2021
- 1921 incidents / violations recorded
- 2121 students warned of violations
- Anonymous submissions by library staff and student employees via a webform

### Intended Outcomes

- Keeping everyone safe
- Engaged participation = greater impact and scope
- Identifying areas / times of concern

### Future Considerations

- Keep data live / current
- Engaged participation
- Platform considerations
